EXPERIENCE

Recent Projects   5/2018—Present

Software Developer, Moviesurfer - Link to App
- Tech stack: React/Redux & MongoDB
- Full stack web app that allows users to create lists of their favorite movies, TV shows and video games.
- Future development will give users the ability to search by genre of the media and rating of individual items.

Software developer, Learn Emoji - Link to App
- Tech stack: React/Redux & MongoDB
- Teaches users emojis using a spaced repetition algorithm.
- Spaced Repetition is a learning that calls for increasing intervals between subsequent review of previously learned material in order to exploit the space effect.

Software developer, Hearbuds - Link to App
- Tech stack: React/Redux, GraphQL, MongoDB.
- A full stack web app that allows users to search for live music in their area and find others as well. Deployed using firebase.
- GraphQL & Express backend.
- Built with a team of 4 other software developers.

Direct Care Counselor, EIHAB Human Services   Feb 2016—July 2017
- Encouraged involvement in community resources to increase activity and social interaction.
- Followed care plans, behavior plans and administer medication to individuals.
- Organized and maintain accurate files of progression of patients behaviors and medical conditions.
- Assisted individuals in maintaining relationships with family and friends.
- Orientated new employees to the group home.

EDUCATION

THINKFUL

Engineering Immersion   9/2018
- Learned industry best practices and practical software development standards with a focus on HTML5, CSS3, Javascript, jQuery, Node.js, React, Redux, and algorithms and data structures.
- Created and deployed mobile first applications while learning new languages and frameworks by collaborating several hours every week with a senior web developer.

RUTGERS UNIVERSITY

Bachelor of Arts, Psychology   5/2015
- Relevant coursework: Intro to Computers, Introduction to Philosophy
- Multiple Dean's List Awards
